SUMMARY OF CONCLUSIONS

The Senior Interagency Group on the Versailles Summit met on April 6 to review two documents which had been circulated prior to the meeting:

- a revised draft Strategy Paper for the Summit
- a draft tasking memorandum assigning responsibility for preparation of briefing materials for the President.

The discussion of the Strategy Paper revealed two principal concerns with the draft:

- first, the East-West economic issues, particularly the credit restraint initiative and COCOM (Technology Transfer), should be given greater prominence among U.S. objectives at Versailles, and
- second, certain passages, especially in the macro-economic section, sound too defensive a note.

It was agreed that the Strategy Paper would be revised in light of the SIG discussion.

Extensive discussion of the "tasking memorandum" resulted in a number of assignment changes from those indicated in the draft. A final tasking memorandum will be prepared by State and issued by the NSC. The Chairman emphasized the importance of meeting deadlines in order to assure adequate time for Cabinet-level and White House review of the briefing materials. Drafts of all briefing material are to be circulated for interagency clearance by April 22; cleared drafts are due at State (Marshall Casse, Rm. 7250 NS, 632-1089) by April 27. The Chairman noted that clearances must be at the DAS-level or above.

ACTION ASSIGNMENT

Written comments were invited on the Strategy Paper. These should be sent as soon as possible to Henry Nau (NSC) and Marshall Casse (State) but no later than April 14.
